Web Portfolio: [CLICK ME!](#)

I am a front-end developer looking to get better at writing clean, scalable and maintainable codes all in a bid to solve problems. I have experience writing ReactJS using contemporary coding practices and my use of the core technologies (HTML5, CSS3, and Javascript) is impeccable. I'm also vast in Git & Github, Slack, Jira for team and production conversations. I have a knack for building beautifully designed UI. I have the determination to be adept with other web technologies as I improve my front-end development skills. I hope in the nearest future with more training to be equipped with a diverse and promising skill-set, proficient in an assortment of technologies and I am able to effectively self-manage during independent projects, as well as collaborate in a team setting.

SKILLS & TOOLS:

- | | |
|-------------------------------|------------------------------------|
| • ReactJs, NextJs | • NodeJs |
| • TailwindCSS, GSAP Animation | • Git/Github |
| • Javascript | • Jira/Scrum |
| • Bootstrap | • Slack/Mattermost/Microsoft Teams |
